

gps treasure hunts

Dates & Duration

Half and full day events available year round.

The Trip

Individually designed corporate treasure hunts are created to enhance communications, develop creative thinking and form effective teams. Our easier events use 4x4 vehicles in the wadi's and high passes of the Hajjar mountains; the more

demanding events see participants on mountain bikes and kayaks.

A challenging course is created with waypoints entered into the handheld GPS units. Teams must work together to solve clues, find locations, take a series of creative photos and (sometimes) even dig up buried treasure.

We provide all equipment, hunt manuals and GPS units for these fully supervised hunts.
