

# cycle sana

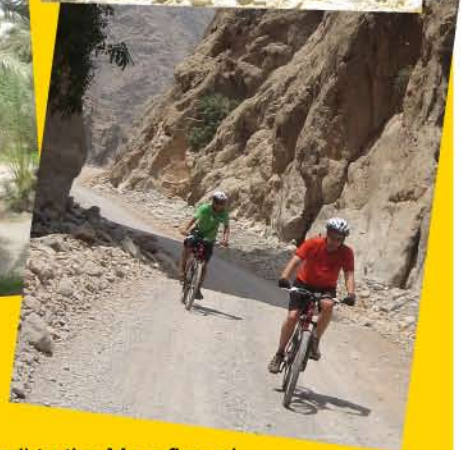

## Dates & Duration

Available October to April. 5 hour round trip from Dibba.

## The Trip

One of our more technical rides, this trail leads us high into the Hajjar mountains before a fast, and technically difficult, 3 km downhill blast.

We head out from our Adventure Centre with bikes loaded on our specially designed pick up. Unloading the bikes at Al Ghail village, we head into Wadi Sidr passing many fertile plantations where wild donkeys take shade from the sun. A short section of tarmac leads us to Wadi Sana and the most challenging part of our ride. Initially the trail is flat but then climbs steadily to a plateau with views

all the way back to Dibba. We then have an exciting downhill trail to the Masafi road where we'll load the bikes and return to our base.
